Yapılan İşlerin Konusu/ Field of Research/Work Conducted:

Workflow Automation & Event-Driven Triggers

Yapılan İşler/Work-Research Being Performed:

I built my first Make.com scenario. Added a Google Drive trigger set to "Watch Files in a Folder" and pointed it at my Incoming Invoices folder.

This was the moment the "event-driven" part of the project clicked for me, I finally understood that the whole pipeline starts automatically the second a file lands in that folder, with zero manual effort after setup.
