Stajın Yapıldığı Departman/Department of Institution Worked at:
Data / Analytics / AI Department

Yapılan İşlerin Konusu/ Field of Research/Work Conducted:

Optical Character Recognition (OCR) — Concepts

Yapılan İşler/Work-Research Being Performed:

I focused on understanding OCR today, how a computer actually "reads" an image of a receipt and turns it into text. I initially assumed Google Drive had a built-in convert-to-text module inside Make, so I went looking for it.

Turns out it doesn't exist under that name, which was a good reminder that no-code tools still require some troubleshooting and research, not just clicking.
