Yapılan İşlerin Konusu/ Field of Research/Work Conducted:

Cloud Infrastructure Setup (Google Cloud Console)

Yapılan İşler/Work-Research Being Performed:

I Opened Google Cloud Console for the first time and created a new project called "invoice-ocr-project." It was a bit unfamiliar navigating a proper cloud dashboard after working inside Make's simpler interface.

Took my time making sure the new project was actually selected before doing anything else small detail, but I've learned those details matter in this kind of setup work.
